

The animals of Greece need help!

For years now, animal welfare organisations have tried to do, for the suffering animals of Greece, the work that should rightfully be done by others: Spaying/neutering, providing veterinary help, feeding programmes and adoption to private citizens.

FOR OUR EFFORTS WE ARE TREATED AS CRIMINALS!

By self-proclaimed "animal friends" with an astonishing power in the media, we are accused of pet-trafficking, export of animals for experimental use and for making fortunes.

LOOK FOR THE TRUTH! WE HAVE NOTHING TO HIDE!

We have proved in the Greek courts time and time again that all accusations against us are untrue!

Miki and hundreds more like him are our proof!

Miki in Athens in July 2005 - His fur burnt off as he had been set on fire and his tail cut off with a pair of scissors.

Miki in Denmark in February 2006. A beloved, beautiful family pet.
